

DATA SHEET

NEUTRADEX

DOSAGE AND METHOD OF USE

Horse (500 kg)

- *After work:* 50 ml a day to eliminate toxins and recover from fatigue
- *Maintenance:* 50 ml daily for horses with tying up problems
- *Pre-race:* 50 ml for 3 days before effort to prevent muscle pain

To mix into the feed ration

PACKAGING

5 litre canister

DESCRIPTION

Formulation containing ingredients rich in sodium citrate, active against lactic acid. This one is responsible for stiffness and soreness associated with acidosis after intense effort.

The ingredients in Neutradex promote post-exercise recovery, optimising training and thus improving the horse's performance.
