To mix into the feed ration

## PACKAGING

900 g tin

## DESCRIPTION

thanks to the combined action of its ingredients, it supports:

- horses subjected to high stress
- mares at the end of pregnancy and while the foal is lactating
- foals in their growth phase

The product offers a selection of ingredients aimed at the horse's well-being.

## THE PRODUCT CONTAINS

- **Ascorbyl palmitate** (particularly active form of vitamin C), **polyphenols from lignocellulose and olives**: antioxidant properties capable of neutralising excess free radicals
- **Echinacea**: plant with immunostimulating properties
- **Arginine**: important amino acid with a regulatory function in nitrogen metabolism
- **Beta-glucans**: assists the phagocytic activity of monocytes, macrophages, neutrophils and NK cells
- **Egg powder**: helps maintain intestinal homeostasis

## PRODUCT CODE

EAN13: 8055320270185
